Letter from the Director

International Student & Scholar Services (ISSS) has been committed to providing culturally sensitive services of the highest quality to international students and scholars since the University of Illinois at Urbana-Champaign became the first university in the nation to create an International Student Advisor position in 1907. This year we are especially proud that our campus population reflects this history of service to international students by ranking 1st amongst all US public institutions hosting international students for the first time since 2014. We also rank 6th among public institutions for hosting international scholars. We happily share the statistics contained in this report for informational purposes, but we want to emphasize that the international education efforts on campus go far beyond impressive attendance numbers. The University of Illinois has spent over a century at the forefront of this field, and ISSS continues that work by not only being the primary point of contact for all matters related to immigration status at the university, but also by being advocates for our international population and providing social and educational programming throughout the year.

This Fall we welcomed an all-time campus record of 3,360 new international students, despite national trends showing a decrease in arriving international students. This record breaking incoming class helped the overall number of enrolled international students rise from last year to the second highest the campus has ever seen, with Fall 2019's number of 10,610 topped only by Fall 2017's 10,834. Graduate students account for approximately 52.5% (5,572) of this international enrollment, outnumbering undergraduate students for a second consecutive year. Undergraduate students make up 47.5% (5,038) of the international student enrollment, which means both populations are over 5,000 for the fourth consecutive year.

Our students represent 113 countries, with 87% of students coming from Asia which is consistent with recent years. The top five countries of origin remain the same as last year and are China (5,738), India (1,483), South Korea (917), Taiwan (391), and Indonesia (137). Of specific note this year is the continued growth in students from the continent of Africa, which is up 35% over the past two years.

From July 2018 through June 2019, the University of Illinois welcomed 2,003 international faculty and staff to its campus, the fifth consecutive year this number has exceeded 2,000. 28% were working and researching in Liberal Arts and Sciences, followed by 24% in Engineering, increases for both these colleges. The most represented country was again China, with 987 faculty and staff, followed by India (167), South Korea (131), and Brazil (100).

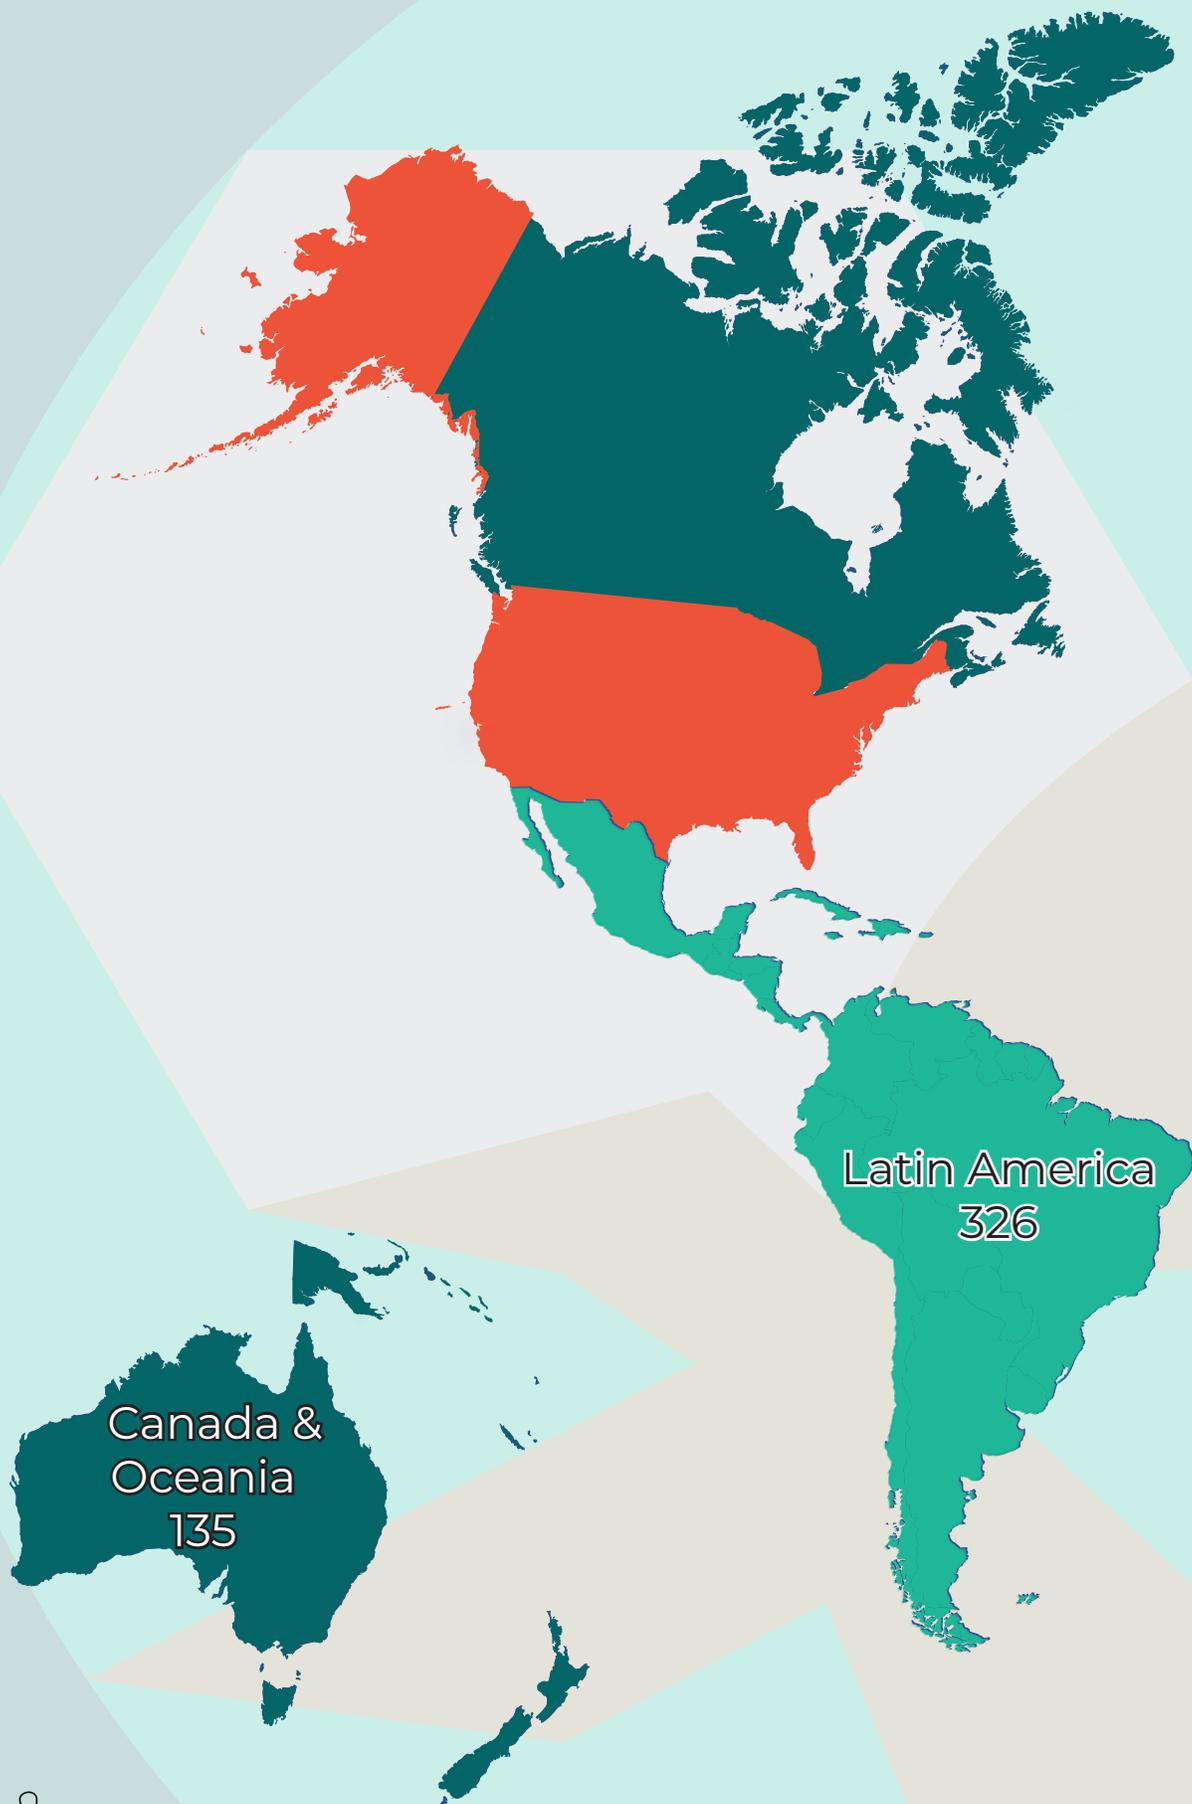

ISSS remains honored to serve so many talented international students, faculty and staff at the University of Illinois at Urbana-Champaign and we look forward to continue to work with a population that is integral to the success of our campus.

International Students by Region

A world map with four regions highlighted in different colors: Europe (orange), Middle East (purple), Africa (green), and Asia (red). The map is set against a background of large, overlapping geometric shapes in shades of orange, purple, green, and red. The student counts for each region are displayed in white text over their respective colored areas.
